Limestone Friends & Neighbors,

Over the last several years, the Limestone Presbyterian Church Mission and Outreach committee has sought to get to know and to connect with our local community. As a major step in this direction, we are participating in a Community Engagement Study.

So what is Community Engagement? Community Engagement is about an outward focus that builds bridges through intentional interaction with those in our broader community. How do we take our gifts, talents, and resources and connect with those within a 2-to-3-mile radius around the church? We'll be learning about the aspirations, joys, hopes, and struggles of our local community.

As a valuable part of our community, we would like to invite you to participate in the upcoming Community Engagement Study. In June, you will have an opportunity to participate in our "listening campaign". This will be a chance for us to collect valuable information that will help construct the bridges to our community.

You can sign up to participate now! In June, you will receive emails with links to a series of three (3) online opportunities to share your thoughts. Each one will take about 15 minutes to complete. This work will help us to determine the interests of our immediate community and how our time and talents can help us to create a bridge to building a stronger relationship with those right around us.
